

I would like to comment on how K-Love has enriched my life on a daily basis and gives me support spiritually and emotionally in every avenue. I live in a small remote town in Northwest Montana named Whitefish, my nearest K-Love reception comes from 150 miles south of here in Missoula. With the Rocky Mountains so predominant, getting a signal 150 miles away is incredible and yet, so significant to what is crucial to my spiritual life and well being. I can only imagine that this outreach from God is a prayer and a hope for many here that long for a touch, a care, and a prayer from someone that K-Love fulfills. If we weren't meant to have this ministry, why do we? God will provide and he does. This is critical to those of us who live here in an area where K-Love ministry is an outreach in the middle of the upper Rocky Mountains where this type of music and help is hard to come by. I would like to thank them and say God Bless them and their ministry. I support them and all they do, both financially and spiritually. Please don't take them away.
